# TRAINING TOMORROW'S ENGINEERS

**télécom**  
**saint-étienne**

école d'ingénieurs  
nouvelles technologies

École affiliée  
**IMT**

**UNIVERSITÉ**  
**JEAN MONNET**  
SAINT-ETIENNE

# › WELCOME TO TSE

An integral part of the Université Jean Monnet in Saint-Etienne and an associate member of the Institut Mines-Télécom, TSE trains around 550 student engineers in the field of new and emerging technologies. Students can combine electronics, photonics, telecommunications, networks, imaging, machine vision and informatics to obtain either a major/minor or a dual degree.

## ACTIVITIES FOR INTERNATIONAL STUDENTS

Erasmus Days: a time to introduce Erasmus Partners and exchanges

**Jeunes Ambassadeurs:** a program of coaching between a local business person and an international student

**AGERA:** International students' event in Lyon (guided tour of Lyon and official welcome)

**Welcome day:** a day of events to wish our international students a warm welcome (September)

**MELTINGPO'TSE:** a day to discover food and culture from the countries of our international students and from other areas of France (organized by the TSE Students Union)

**Chinese New Year:** a day to discover China and Chinese food

**Gagastronome:** a family from Saint-Etienne invites an international student for a meal in their home

## WHAT THE STUDENTS SAY

**YUEMING YANG (GRADUATE 2020)**  
CHINA

*During my three years at Télécom Saint-Etienne not only did I acquire knowledge, I also grew up as a person. At the beginning we were little more than teenagers and we couldn't speak French fluently. We needed help from our classmates to understand. By the third year our language level had improved and we were able to play an important role in the projects we did with our classmates.*

*At first the number of exams and strange courses surprised us. As time went by, we understood that lab work and hands-on training made learning much easier. At the same time our extracurricular activities, such as the celebration of the Chinese New Year, made us feel to be a real part of the school community.*

*During our stay in France we were also able to visit Morocco, Germany, Italy, Finland and lots of other places. To cut a long story short, living and studying at Télécom Saint-Etienne is an unforgettable experience.*

**ZIXIAO ZHAO (GRADUATE 2020)**  
CHINA

*I can honestly say that the three years I spent at Télécom Saint-Etienne were very pleasant. Even though I felt that life in France was very strange when I first arrived, after a period of adaptation I was really able to enjoy myself. Of course the courses were not easy, but with a lot of hard work and help from my classmates and teachers I was able to get good grades. I cannot guarantee that studying at TSE would be the best choice for everyone, but for me it is choice I will never regret.*

**MUSTAPHA HAIDAR**  
MOROCCO

*I particularly appreciated the quality of the training courses that took place in the form of seminars and group work, which strengthens team spirit and allows everyone to learn to express themselves in public and to defend their point of view. Through my internships I discovered the concrete aspect of the job.*

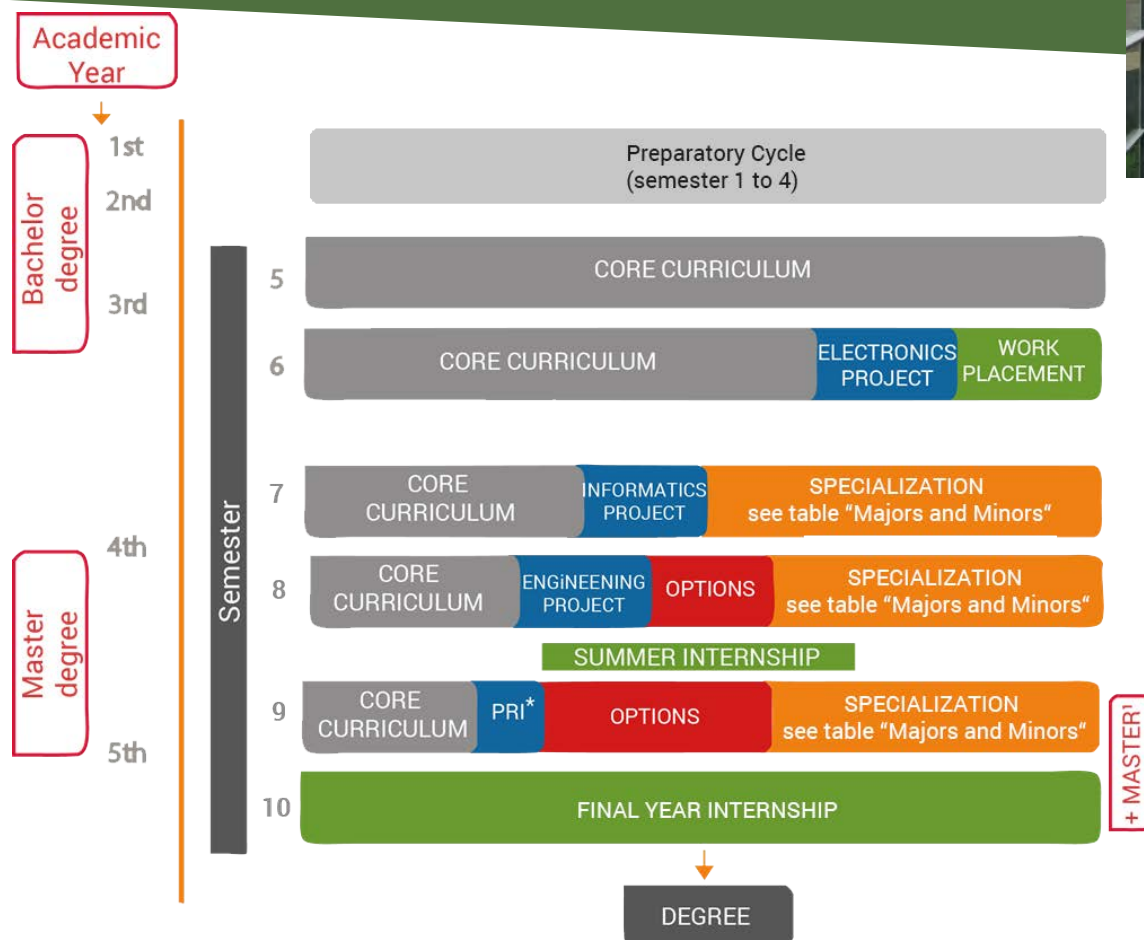

**LINDA BRUNELLI**  
ITALY

*Télécom Saint-Etienne is such a little but dynamic school, with a good choice of classes in different fields. Students are required to do different internships and to develop a large number of projects, some of them in partnership with different companies, thus leading students to experience the real world of work and to build up a solid and useful background.*

# › ORGANIZATION OF STUDIES

\* Research and Innovation Project

**5 MAJORS  
&  
11 minors**

IMAGE PROCESSING		
Computer Science	Electronics	Vision

COMPUTER SCIENCE	
Networks	Image Processing

ELECTRONICS		
Optics	Telecommunications	Image Processing

NETWORKS	
Telecommunications	

OPTICS & PHOTONICS	
Digital Science	Image Vision

**3rd year:** introduction to all the MAJORS

**4th year:** students have to choose 1 MAJOR and 1 minor

**5th year:** additional options can be chosen including a Master's Degree

# › MORE INFORMATION
