STUDENT LIFE

WELCOME TO TÉLÉCOM SAINT-ETIENNE

An integral part of the Université Jean Monnet in Saint-Etienne and an associate member of the Institut Mines-Télécom, TSE trains around 540 student engineers each year in electronics, optics, telecommunications, networks, imaging, vision and informatics. Each year there are approximately 40 incoming students.

ACTIVITIES

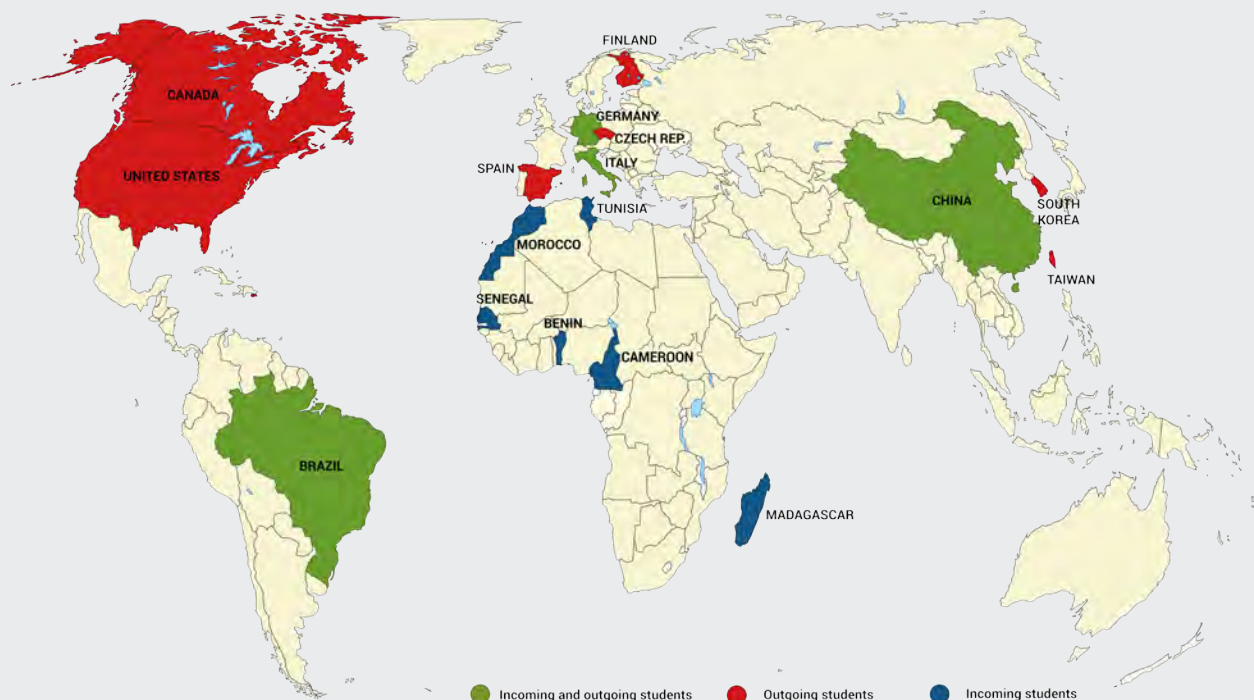

Cultural outings
Junior Enterprise
Robotics club
Sports tournaments

Annual ball
Final year trip
Freshmen's weekend
Graduation ceremony

Jeunes Ambassadeurs (a program of coaching between a business manager and an international student)
AGERA International students' event in Lyon (guided tours of Lyon and official welcome)

And also Association "SaVA" Sainté Ville d'Accueil - an international students' association.

STUDENTS AROUND THE WORLD

ORGANIZATION OF STUDIES

COURSES

Courses are composed of lectures (30%), seminar groups (55%), lab work (15%).

1ST YEAR

Basic training in Information Science and Technology, Math, Physics, Foreign languages (English + French or a second foreign language), Social Sciences, Project Management, Engineering as a profession.

2ND YEAR

Core curriculum, projects + specialization

Spec. 1 : Photonics, Electronics
Spec. 3 : Electronics Systems, Telecommunications
Spec. 5 : Photonics, Vision
Spec. 7 : Development of applications for imaging
Spec. 9 : Informatics, Telecommunications, Networks

Spec. 2 : Electronics, Photonics, Telecommunications
Spec. 4 : Imaging and Electronics Systems
Spec 6 : Imaging, Vision
Spec. 8 : Telecommunications, Networks

3RD YEAR

1st semester: core curriculum + specialization
2nd semester: internship

INTERNSHIPS

1st year: 4 weeks - Work experience
2nd year: 6 weeks - During summer vacation
3rd year: 22 weeks (minimum) - Final year project

N.B. Internship period in France for foreign students: 4 weeks minimum

WHAT THE STUDENTS SAY

Ting WANG
China

Why was TSE chosen? It is because it is a very good engineering school in the field of electronics and IT. In addition, we found the town, Saint Etienne, quiet but dynamic. I made the experience that I never had before and it allows us to be more independent, more tolerant and more energetic.

Hajar ABAZ
Morocco

My choice automatically went towards TSE because of the large range of courses in 2nd year. The courses are well organized and the choice of projects is made to arouse a student engineer's curiosity. Finally, student life in Saint-Etienne is rich and dynamic.

HOW TO APPLY

EXCHANGE PROGRAMS INCLUDING ERASMUS+	<ul style="list-style-type: none"> • Students can follow 2nd year or 3rd year courses. • Students are selected for exchange by their home university. • <u>Application deadlines</u> : Winter semester or full year : mid-May Spring semester : late October • Non-European students must ALSO apply on CEF for a student visa. See information available at: http://www.campusfrance.org/
NON-EXCHANGE STUDENTS	<ul style="list-style-type: none"> • Students can apply for entrance to the 1st or 2nd year • Online applications from November to April : http://concours.telecom-st-etienne.fr/ • April : deadline for sending your application papers to TSE • May : interviews • If you live in a CEF country, you must also apply on : http://www.campusfrance.org/
USEFUL INFORMATION	<ul style="list-style-type: none"> • Students must have a good level in French (courses at TSE are in French). • Possibility to take French courses before the semester begins. • Courses at TSE begin 1st September (presence compulsory) • See more information on our website : http://www.telecom-st-etienne.fr

- > Under 3 hours from Paris by train
- > 45 minutes from Lyon by car or by train
- > 1 h from Lyon international airport
